What clients say about the team

“MANGEAT’s work for one of our major HNWI client who is involved in the devolution of an extremely complicated, multi-jurisdictional estate case has been of critical importance.

From day one of our interactions, Fanny Margairaz’s and Grégoire Mangeat’s competence impressed the client, as well as his advisers and lawyers in other countries. Communication and responsiveness were impeccable and immediately re-assured the client and his advisers. The complexity of the work required considerable research and expertise and both of them were able to guide us through various legal processes with a great deal of care and clarity. At the same time MANGEAT’s team ensured that we, the client and lawyers in other jurisdictions involved were aware of every process detail and on the same page.”
